Attachments:

Severity: Minor

Description

Preconditions:

1. The site is opened - <https://itqc.ru/>

Test data:

1. field "Your name" - "Darya"
2. field "Your phone number" - "+7(777) 777-77-77"
3. field "Your E-mail" - "darya@" - **invalid data**
4. field "Your question" - "The vacancy on the site"

Steps to reproduce:

1. Click the button of changing the language into English in the right upper corner.
2. Scroll down the main page.
3. Enter the valid value from test data in the field "Your name".
4. Enter the valid value from test data in the field "Your phone number".
5. Enter the invalid value from test data in the field "Your E-mail".
6. Enter the valid value from test data in the field "Your question".
7. Click the button "Send".

Expected result:

1. The field "Your E-mail" is highlighted by red color. The system shows a message about incorrect input data for the field "Your E-mail"

Actual result:

1. The message about successful sending of the input data is shown in the pop-up window. The invalid email is not validated by system.
